

# AI for All

Free, teacher CPD session to support AI use across your school

Developed in partnership with Microsoft.

Delivered as part of our Regenerative AI Roadshow, in partnership with Accenture.

## The CPD

This 90 minute, hands on CPD will support secondary teachers from all subjects and roles to explore AI in an approachable way.

### What we will cover:

- What AI is.
- Why it matters in education.
- How AI and the key skills needed to use it effectively will prepare young people for future technology careers.
- Safeguarding considerations and key digital risks for young people.
- How AI can support workload and classroom practice.
- How to use and personalise AI tools effectively.
- How to avoid issues such as bias and misinformation.

Practical guidance to support safe, confident, and responsible use of AI across schools.

### What you will leave with:

As well as improved confidence, knowledge of AI, AI related skills and careers, teachers will also leave with ready to use resources.

### Take-away resources:

- AI Teacher Workbook
- Starter prompt examples
- Personalisation guide
- Basic prompt template
- Structured, detailed subject prompts
- One page terminology summary
- Progression document
- Careers posters
- FACT checking guide
- Links to further CPD
