## IN TECHNOLOGY

### PATHWAYS TO YOUR DREAM TECH JOB

#### Graduate Programme

**When?**

After university

**What is it?**

- A job for people who have just finished university.

**Why this route?**

- Get paid to work, learn new skills, and train for a future career.

#### Internship

**When?**

During or after university

**What is it?**

- Work experience at an organisation in a tech role.

**Why this route?**

- Better chance of getting a job in that organisation afterwards.

#### Apprenticeship

**When?**

After GCSEs or A-Levels

**What is it?**

- Work in an organisation, learning about and doing a tech role.

**Why this route?**

- Earn a salary and study at the same time.
- Earn a degree at the end.
- There are no tuition fees.

#### Self-learning

- Using online courses or tutorials to build your own skills.
- Joining tech clubs like coding clubs.
- Researching and exploring technology - being curious!

#### T-Levels/college courses

**When?**

- After year 11.

**What is it?**

- A mixture of school learning and work experience.

**Why this route?**

- Real experience in the tech industry.
- Gain qualifications at the end.
- Straight into a job or university afterwards.
