AI for All

Free, teacher CPD session to support AI use across your school

Developed in partnership with Microsoft.

Delivered as part of our Regenerative AI Roadshow, in partnership with Accenture.

The CPD

This 90 minute, hands on CPD will support ALL teachers from all subjects and roles to explore AI in an approachable way

What we will cover:

- What AI is.
- Why it matters in education.
- How AI and the key skills needed to use it effectively will prepare young people for future technology careers.
- Safeguarding considerations and key digital risks for young people.
- How AI can support workload and classroom practice.
- How to use and personalise AI tools effectively.
- How to avoid issues such as bias and misinformation.

Practical guidance to support safe, confident, and responsible use of AI across schools.

What you will leave with:

As well as improved confidence, knowledge of AI, AI related skills and careers, teachers will also leave with ready to use resources.

Take-away resources:

- AI Teacher Workbook
- Starter prompt examples
- Personalisation guide
- Basic prompt template
- Links to further CPD
- Structured, detailed subject prompts
- One page terminology summary
- Progression document
- Careers posters
- FACT checking guide
