

Plan a Responsible Business

Use this template to create a personalised plan that will help to make a responsible business which takes care of our planet. Your business can be anything you like, or if you're stuck for ideas you could even design a plan for a business that already exists. The important thing is that you identify ways that the business can reduce pollution and help the planet, whilst still achieving its main goal. For example, you could design a plan for your own shoe company, which in itself won't have much impact on the environment, but maybe the shoes will come in biodegradable boxes which become food for plants once they are thrown away. Make sure that you have watched the Tech we Can video lesson on **Tech for the Planet** before you start.

My business name: _____

Industry (eg food, fashion, music): _____

How can your business be responsible in the following areas:

Waste		Air Pollution	
Wildlife Conservation		Ocean Pollution	

Are there any barriers to making this business responsible?

What effect will your responsible business have on the environment?

How can technology help in your plan?
