

Design a Robot Companion

Design your own robot companion to help people, such as the elderly or those that live alone. Think about some of the struggles that people might face and how your robot can help. Use the space below to draw your robot, making sure that you add labels to describe the parts. Then, on the next page, use the prompts to write about the ways in which your robot can help to provide a person in need with support and companionship. Make sure that you have watched the Tech We Can video lesson on **Tech for Pandemics** before you start.

**Think about ways
your robot can
help with:**

Mealtimes

Morning routines

Household tasks

Exercise

Bedtime routines

Hygiene

Healthcare

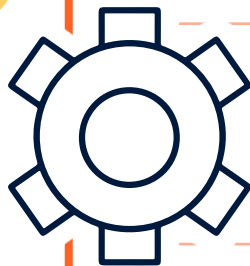

Entertainment

Conversation

Communication

A large rectangular area with an orange border and horizontal orange lines, intended for writing. A gear icon is located at the bottom left of this area.
